- ✓ FastAPI
- ✓ Git
- ✓ HTML
- ✓ Python
- ✓ REST API
- ✓ React
- ✓ SQL

Missing Skills

- CSS
- Communication
- JavaScript
- Problem Solving

Recommendations

- Your resume has a good match. Strengthen the missing skill areas and add measurable project achievements.
- Add evidence of CSS only if you genuinely have experience with it, preferably through a project or internship.
- Add evidence of Communication only if you genuinely have experience with it, preferably through a project or internship.
- Add evidence of JavaScript only if you genuinely have experience with it, preferably through a project or internship.
- Add evidence of Problem Solving only if you genuinely have experience with it, preferably through a project or internship.

- Use action verbs and measurable results in your project descriptions.
- Keep the resume ATS-friendly by using simple headings and avoiding complex graphics or tables.

Note: This score is based on detected skills and keyword matching. It is not an official score from any employer's ATS.
